

Your CRO Partner for Success

YOUR FIRST CHOICE FOR QUALITY, COST-EFFECTIVE DRUG & BIOLOGICS TEMPERATURE MONITORING

During clinical trials, it is imperative that the integrity of temperature sensitive drugs and biologics be maintained.

Drugs and Biologics can require continuous temperature monitoring from manufacture to subject administration in order to document safety and efficacy. BMA will manage continuous temperature monitoring to ensure that the cold chain is adequately maintained.

“ Get the most out of your study and resources by partnering with BMA ”

Our goal is to provide world class support services that keep your projects on time, within budget and compliant to all regulatory authorities.

Drug and Biologics Temperature Monitoring (Cold Chain)

- Presentation of Processes to Sponsor & Sites
- Hands-on Site Training & Guidance
- Creation of Monitoring Documentation
- Dissemination & Collection of Monitoring Devices & Forms
- Initial Site Assessments
- Evaluation of Existing Site Temperature Monitoring Systems to Ensure Compliance with Sponsor Specifications
- Ongoing Site Monitoring for Compliance
- Deviation Follow-up, Quarantine & Corrective Action
- Assist Sites with Identification of Solutions to Challenges in Meeting Sponsor Specified Storage Guidelines
- Audit-ready Documentation Prepared and Maintained
